

# HYFLEX COURSES

Courses offered in this format allow for the most flexibility. HyFlex courses are structured so that students can decide how to participate. In a HyFlex course students can choose their preferred mode of course delivery for each class session, instead of being locked into one format for the entire semester. In HyFlex courses, students can choose from three participation paths:

## On-Campus Live

Students can choose to attend class on-campus in a specific classroom. Class sessions will be livestreamed and recorded.

## Online Synchronous

Students can choose to participate in class real-time via video conference (i.e., Zoom).

## Online Asynchronous

Students can choose to watch the class recordings online at their convenience. Recordings and all course materials, activities, and assignments will be available in the learning management system (i.e., D2L).
